**ote to subscribers**

**Publication details:** One volume per year in six parts. Volume 17 published during 1992 will contain 672 pages total. Subscription period: calendar year only.

**Subscriptions**

The 1992 subscription rates for volume 17 are: EC £330; USA/Canada US $590; rest of the world £360.

Enquiries for subscription orders should be sent to the Subscription Department, Chapman & Hall, International Thomson Publishing Services Ltd, Cheriton House, North Way, Andover, Hampshire SP10 5BE, UK; Tel: (0264) 332424; Fax: (0264) 359704.

All subscription enquiries and prices for single issues for the UK and the rest of the world should be addressed to the Journals Promotion Department, Chapman & Hall, 2–6 Boundary Row, London SE1 8HN, UK; Tel (071) 865 0066; Fax (071) 522 9623.

All subscription enquiries and prices for single issues for the USA or Canada should be addressed to the Journals Promotion Department, Chapman & Hall, 29 West 35th Street, New York, NY 10001-2291, USA; Tel: (212) 244 3336; Fax: (212) 563 2269.

All payments in US$ should be sent to Routledge, Chapman & Hall Dollar Account in New York: Account number 051-70700-4 at Barclays Bank New York Ltd, 300 Park Avenue, New York, NY 10022.

Journals are sent second-class in the UK and by air speeded post or air freight to most other countries. Journals can be sent by air mail letter rate at an additional cost, details of which are available on request.

Second-class postage paid at Rahway, NJ. Postmaster: send address corrections to Applied Economics, c/o Mercury Airfreight International Ltd Inc., 2323 Randolph Avenue, Avenel, NJ 07001, USA.

Editorial enquiries to: Nick Fallon, Publisher's Editor, Transition Metal Chemistry, Chapman & Hall, 2–6 Boundary Row, London SE1 8HN, UK.

The annual Author and Keyword indexes were prepared by the Chemical Abstracts Service. Accordingly, abbreviations and spellings occurring in the index entries are those regularly used in Chemical Abstracts.

# Author index

**Abaidoo, R. C.** The antimicrobial effect of $N_6$-tetradentate macrocyclic metal complexes and their precursors. 407

**Abd El-Fattah, T. M.** Cobalt(II), nickel(II) and copper(II) complexes of syn-2-picolyl phenyl and syn-2-quinaldyl phenyl ketoximes. 181

**Abdel-Khalek, A. A.** Kinetic studies of the oxidation of N-(2-hydroxycyclohexyl) ethylenediaminetriacetatochromate(III) by periodate. 173

**Abdel-Khalek, A. A.** Kinetics and mechanism of oxidation of arsenic(III) by ferricyanide in methanol-water mixtures. 505

**Abu El-Reash, G. M.** Transition metal complexes derived from 2-hydroxyimino-3-(2'-hydrazonopyridyl)butane. 189

**Adhikari, S.** Formation of linkage isomers via the substitution of halides by selenocyanate in ruthenium(III) complexes. 583

**Adhikari, S.** The mechanisms of the acid-catalyzed dissociation of tris-$\beta$-diketonatoruthenium(III) complexes. 586

**Adimado, A. A.** The antimicrobial effect of $N_6$-tetradentate macrocyclic metal complexes and their precursors. 407

**Agarwal, S.** Kinetic study of the oxidation of thioacids by pyridinium fluorochromate. 641

**Al-Alousy, A.** Solvent dependence of charge-transfer transitions in binary aqueous mixtures as an indicator of preferential solvation. 445

**Al-Arfaj, A. R. A.** Interaction of palladium(II) with DL-selenamethionine in acidic aqueous solution. 304

**Albert, J. N.** Transition metal ion complexes of thiosemicarbazones derived from 2-acetylpyridine N-oxide. Part III. Spectral and thermal studies of the metal complexes of 2-acetylpyridine N-oxide thiosemicarbazone. 1

**Ali, M. A.** New quadridentate ONNS ligands and their metal complexes. 528

**Ali, S. I.** Photoexcitation of octacyano complexes of molybdenum(IV) and tungsten(IV) with ethylenediamine. Kinetics and reaction mechanism. 450

**Ali-Mohamed, A. Y.** Bacterial activity of cobalt(III) complexes. Part IV: diethylenetriaminemonoacetatocobalt(III) complexes. 14

**Alvarado, T.** Rare earth metal complexes with 1,3-bis-(2-hydroxyphenyl)-1,3-propanedione. An example of anhydrous rare earth $\beta$-diketonates. 62

**Alvarez, C.** Polyfluorothiolate derivatives of rhodium(I). Crystal and molecular structure of $[Rh(\mu\text{-}SC_6HF_4)(C_8H_{12})]_2$. 130

**Aly, A. A. M.** A contribution to the thermal decomposition of salts and metal complexes of 1,1-dithiolates. 249

**Amer, S. A.** Synthesis and characterization of new macrocyclic diimine complexes of nickel(II). 152

**Amer, S. A.** The deoxygenation kinetics of new oxovanadium(IV) complexes. 317

**Amira, M. F.** Solvent effects on the aquation of chloropentamminecobalt(III) perchlorate in ethanol-water. 488

**Argay, G.** Synthesis and x-ray crystal structure of a dinuclear copper(I) thiobenzoate triphenylphosphine complex. 576

**Arnold, S.** Cyclic ligands with fixed coordination geometry. Part 7. Cationic copper(I) complexes of composition $[Cu(V_3S_3)L]^+CF_3SO_3^-$ ($V_3S_3$ = 5,10,15-trithia-cyclo-triveratrylene, L = CO, $CH_3OH$). 76

**Arulsamy, N.** Spectral and electrochemical investigations of copper(II) N-salicylidene-amino acidato complexes and their imidazole, pyrazole and pyridine adducts. 255

**Arulsamy, N.** Stereospecific reactions of copper(II) complexes of serine and threonine with formaldehyde. 606

**Arulsamy, N.** Condensation of bis($\beta$-alaninato)copper(II) with formaldehyde and ammonia. 645

**Arzoumanian, H.** Preparation and x-ray structure determination of penta- and tetracyanooxomolybdenum(IV) anions. The influence of water on their reactivity. 422

**Ashmawy, F. M.** Catalytic decomposition of hydrogen peroxide in the presence of N,N'-bis(salicylidene)-o-phenylenediamineiron(III) sorbed on to Dowex-50W resin. 319

**Ayad, M. I.** Effect of axial anions on the thermal stability of square pyramidal manganese(III) complexes. 518

**Aymonino, P. J.** Spectral properties and reactivity of the binuclear complex ion $\mu$-(p-benzoquinonediimine)bis[pentacyanoferrate(II)]. 155

**Ayoko, G. A.** Electron transfer at tetrahedral cobalt(II). 1. Kinetics of bromate ion reduction. 145

**Babaqi, A. A. S.** Solvent effects on the aquation of chloropentamminecobalt(III) perchlorate in ethanol-water. 488

**Bajaj, H. C.** Kinetics and mechanism of ligand substitution of mono(polyamine)nickel(II) complexes with 4-(2-pyridylazo)resorcinol. 511

**Bajpai, S.** Kinetics and mechanism of ruthenium(III) catalysis in the oxidation of erythritol and dulcitol by N-bromoacetamide. 610

**Ballesteros, R.** Coordinating behavior of a new pyridylhydrazone; tris-complexes of manganese(II), cobalt(II), nickel(II), copper(II) and zinc(II) with 2-pyridylcarbaldehyde-N,N-dimethylhydrazone. 601

**Bandyopadhyay, D.** Complexes of NS and NSO donor ligands. Nickel(II), copper(II) and cobalt(II) complexes of glyoxal bis(morpholine N-thiohydrazone) and diacetyl bis(morpholine N-thiohydrazone). 267

**Banerjea, D.** Kinetics and mechanism of formation of square-planar copper(II) and nickel(II) complexes of ethylenebisbiguanide in aqueous acetate buffer media. 264

**Banerjea, D.** Kinetics and mechanism of oxidation of 8-hydroxyquinoline and its derivatives by cerium(IV) through precursor complex formation. 324

**Banerjea, D.** Kinetics and mechanism of reactions of bis(biguanide)copper(II) ion with 2,2'-bipyridyl and 1,10-phenanthroline in aqueous solution. 332

**Banerjea, D.** Kinetics and mechanism of dissociation of copper(II) complexes of biguanide and some $N^1$-substituted biguanides in aqueous acetate buffer media. 441

**Banerjee, P.** Kinetics and mechanism of the reduction of dodecatungstocobaltate(III) by $\alpha$-hydroxyacids in aqueous acid solution. Evidence for alkali metal ion catalysis. 160

**Banerjee, P.** Kinetics and mechanism of the reaction of [trans-cyclohexane-1,2-diamine-N,N,N',N'-tetraacetato]manganate(III) with substituted thioureas in aqueous medium. 355

**Banerji, K. K.** Kinetic study of the oxidation of thioacids by pyridinium fluorochromate. 641

**Baran, E. J.** Two new ternary vanadyl(IV) complexes containing ATP. 599

**Barquin, M.** Nitrates and bis(dithiooxalato)nickelates(II) of biacetyldihydrazone complexes. 363

**Barrios, A.** Solvent effects on substitution reactions at complexes of the $[Fe(CN)_5L]^{3-}$ type in binary aqueous mixtures. 165

**Basson, S. S.** The crystal structure of cesium tetracyanodioxoosmate(VI) $Cs_2[OsO_2(CN)_4]$. 60

**Behrens, J.** Cyclic ligands with fixed coordination geometry. Part 7. Cationic copper(I) complexes of composition $[Cu(V_3S_3)L]^+CF_3SO_3^-$ ($V_3S_3$ = 5,10,15-trithia-cyclo-triveratrylene, L = CO, $CH_3OH$). 76

**Bekheit, M. M.** Transition metal complexes derived from 2-hydroxyimino-3-(2'-hydrazonopyridyl)butane. 189

**Bekheit, M. M.** Transition metal complexes derived from ethyl $\alpha$-(N-phenylthiocarbamyl)cyanoacetate. 492

**Bembi, R.** Polyazamacrocycles. VIII. Polarographic behavior of some tetraaza macrocyclic complexes of copper(II), nickel(II) and cobalt(III). 200

**Bhargava, S.** Mixed ligand titanium(IV) complexes. Chlorobis(dithiocarbamato)bis(methyl salicylato)titanium(IV) and bis(dithiocarbamato)bis(methyl salicylato)titanium(IV). 622

**Bhatnagar, U.** Phenacyldimethylsulfonium ylide-mercuric chloride complex initiated radical polymerization of methyl methacrylate. 462

**Bhoon, Y. K.** Characterization of nickel(II) complexes of a substituted 2-acetylpyridine thiosemicarbazone by electronic and NMR spectral studies. 111

**Blandamer, M. J.** Isomeric forms of tris-Schiff base complexes of iron(II): structure of the complex derived from 2-acetylpyridine and methylamine. 82

**Bohra, R.** Mixed ligand titanium(IV) complexes. Chlorobis(dithiocarbamato)bis(methyl salicylato)titanium(IV) and bis(dithiocarbamato)bis(methyl salicylato)titanium(IV). 622

**Bondzi, C.** The antimicrobial effect of $N_6$-tetradentate macrocyclic metal complexes and their precursors. 407

**Borges, G. Jr.** Divalent 3d metal chloride adducts with 2'-deoxyadenosine. 454

**Borowy, L. D.** Transition metal ion complexes of thiosemicarbazones derived from 2-acetylpyridine N-oxide. Part IV. Iron(III) and copper(II) complexes of the $^4$N-ethyl- and $^4$N-diethylthiosemicarbazones. 5

**Bottomley, L. A.** Redox tuning of mononuclear rhenium(III) complexes containing substituted nitrile and para-substituted triphenylphosphine ligands. 579

**Bouck, K. J.** Transition metal ion complexes of thiosemicarbazones derived from 2-acetylpyridine. Part 10. A comparison of the chemical and antifungal properties of the copper(II) complexes of 2-acetylpyridine 3-pyrrolidinyl-, 3-piperidinyl-, 3-hexamethyleneiminyl- and 3-azabicyclo[3,2,2]nonylthiosemicarbazones. 271

**Bracke, B.** Synthesis, spectroscopy and thermal properties of the nickel(II), palladium(II) and copper(II) complexes of bis(aminoalkyl)oxamides (= $LH_2$) including the crystal structure of $Cu_2L(NO_3)_2$. 92

**Bulatov, A. V.** Heterogenization of palladium(II) chelates on a sibunite. 293

**Burgess, J.** Isomeric forms of tris-Schiff base complexes of iron(II): structure of the complex derived from 2-acetylpyridine and methylamine 82

**Burgess, J.** Kinetics of oxidation of iodide by hexacyanoferrate(II) in binary aqueous solvent mixtures. 102

**Burgess, J.** Solvent effects on substitution reactions at complexes of the $[Fe(CN)_5L]^{3-}$ type in binary aqueous mixtures. 165

**Burgess, J.** Solvent dependence of charge-transfer transitions in binary aqueous mixtures as an indicator of preferential solvation. 445

**Burgess, J.** Solvent effects upon reactions between ions: hexacyanoferrate(II)-peroxodisulfate and sulfite-hexacyanoferrate(III). 535

**Burgess, J.** Kinetic study of the reaction between protonated trans-dioxotetracyanomolybdate(IV) and 2,2'-bipyridyl. 614

**Calabuig, M. T.** $\mu$-Oxo, $\mu$-sulfido complexes of oxomolybdenum(V) with carboxylate ligands. 508

**Canepari, S.** Formation and dissociation equilibria of intermediate species in the oxidation of cobalt(II)-dipeptide complexes. 296

**Cardenas, J.** Rare earth metal complexes with 1,3-bis-(2-hydroxyphenyl)-1,3-propanedione. An example of anhydrous rare earth $\beta$-diketonates. 62

**Carlson, C. S.** Transition metal ion complexes of thiosemicarbazones derived from 2-acetylpyridine. Part 9. The chemical and antifungal properties of the iron(III) and cobalt(II,III) complexes of 2-acetylpyridine $^4$N-diethyl- and $^4$N-dipropylthiosemicarbazones. 53

**Carlson, C. S.** Transition metal ion complexes of thiosemicarbazones derived from 2-acetylpyridine. Part 10. A comparison of the chemical and antifungal properties of the copper(II) complexes of 2-acetylpyridine 3-pyrrolidinyl-, 3-piperidinyl-, 3-hexamethyleneiminyl- and 3-azabicyclo[3,2,2]nonylthiosemicarbazones. 271

**Carmona, C.** Kinetics of oxidation of iodide by hexacyanoferrate(II) in binary aqueous solvent mixtures. 102

**Carmona, C.** Solvent effects upon reactions between ions: hexacyanoferrate(II)-peroxodisulfate and sulfite-hexacyanoferrate(III). 535

**Carunchio, V.** Formation and dissociation equilibria of intermediate species in the oxidation of cobalt(II)-dipeptide complexes. 296

**Castro, I.** A solution study of complex formation between iron(III) and oxalate in dimethyl sulfoxide. 31

**Cea-Olivares, R.** Rare earth metal complexes with 1,3-bis-(2-hydroxyphenyl)-1,3-propanedione. An example of anhydrous rare earth $\beta$-diketonates. 62

**Chakravarty, B.** Formation of linkage isomers via the substitution of halides by selenocyanate in ruthenium(III) complexes. 583

**Chakravarty, B.** The mechanisms of the acid-catalyzed dissociation of tris-$\beta$-diketonatoruthenium(III) complexes. 586

**Chakravortty, V.** Schiff base complexes of zirconium(IV) derived from tetrakis(acetylacetonato)zirconium. 73

**Chatterjee, D.** Kinetics of the interaction of aquo(ethylenediaminetetraacetato)ruthenate(III) with ferricyanide ion in water. 481

**Chatterjee, D.** Kinetics and mechanism of ligand substitution of aquo(propylenediaminetetraacetato)ruthenate(III) in water. 484

**Chaudhary, P.** Kinetics and mechanisms of oxidation by metal ions. Part XI. Kinetics of the osmium(VIII)-catalyzed oxidation of glycols by alkaline hexacyanoferrate(III). 65

**Chaudhuri, N. R.** Thermally induced isomeric transformations of bis(diamine) complexes of nickel(II) nitrate in the solid phase. 397

**Chauhan, A. J.** Ligating characteristics of a labile phosphorus(III) derivative $R_2PNCS$ (R = Me or

Ph); synthesis and characterization of stable complexes with transition metals. 328
**Chiusoli, G. P.** Advances in catalytic carbonylation with transition metal complexes in homogeneous phase. 553
**Cho, Y.** The chemistry and catalytic properties of ruthenium and osmium complexes. Part 5. Synthesis of new compounds containing arsine ligands and catalytic activity in the homogeneous hydrogenation of aldehydes. 241
**Choi, S. R.** The chemistry and catalytic properties of ruthenium and osmium complexes. Part 5. Synthesis of new compounds containing arsine ligands and catalytic activity in the homogeneous hydrogenation of aldehydes. 241
**Chopdar, A. P.** Transition metal(II) complexes of 1-(α-hydroxynaphthyl)-2-(3'-methyl-5'-mercapto-1',2',4'-triazole)-2-aza-ethane. 628
**Chowdhury, K.** Kinetic study of the oxidation of thioacids by pyridinium fluorochromate. 641
**Chrzaszcz, M.** A copper(II) chloride complex of hexamethylenetetramine. 413
**Cruz-Garritz, D.** Polyfluorothiolate derivatives of rhodium(I). Crystal and molecular structure of $[Rh(\mu\text{-}SC_6HF_4)(C_8H_{12})]_2$. 130
**Cruz-Garritz, D.** Polythiolated complexes. Part 2. Palladium(II) and platinum(II) derivatives of polyfluorophenylthiolates. 236
**Cutin, E. H.** Spectral properties and reactivity of the binuclear complex ion μ-(p-benzoquinonediimine)bis[pentacyanoferrate(II)]. 155
**Damoense, L. J.** The crystal structure of tetraphenylphosphonium pentacyanonitridorhenate(V), $(PPh_4)_3[ReN(CN)_5].7H_2O$. 473
**Das, A.** Kinetics and mechanism of oxidation of 8-hydroxyquinoline and its derivatives by cerium(IV) through precursor complex formation. 324
**Das, A.** Kinetics and mechanism of reactions of bis(biguanide)copper(II) ion with 2,2'-bipyridyl and 1,10-phenanthroline in aqueous solution. 332
**Das, P. K.** Effect of solvent on reactions of coordination complexes. 12. Kinetics and mechanism of chloride substitution reactions of cis-(chloro)(2-aminoethanol)bis(ethylenediamine)cobalt(III) and cis-(chloro)(1-aminopropan-2-ol)-bis(ethylenediamine)cobalt(III) ions in acidic and basic ethylene glycol-water media. 358
**Dash, A. C.** Effect of solvent on reactions of coordination complexes. 12. Kinetics and mechanism of chloride substitution reactions of cis-(chloro)(2-aminoethanol)bis(ethylenediamine)cobalt(III) and cis-(chloro)(1-aminopropan-2-ol)-bis(ethylenediamine)cobalt(III) ions in acidic and basic ethylene glycol-water media. 358
**Dash, K. C.** Schiff base complexes of zirconium(IV) derived from tetrakis(acetylacetonato)zirconium. 73
**De, G. S.** Substitution of aqua ligands from cis-diaquabis(bipyridyl)ruthenium(II) by 1,10-phenanthroline in aqueous medium. 289
**Del Mar Graciani, M.** Solvent effects on substitution reactions at complexes of the $[Fe(CN)_5L]^{3-}$ type in binary aqueous mixtures. 165
**Desseyn, H. O.** Synthesis, spectroscopy and thermal properties of the nickel(II), palladium(II) and copper(II) complexes of bis(aminoalkyl)oxamides (= $LH_2$) including the crystal structure of $Cu_2L(NO_3)_2$. 92
**Devasagayaraj, A.** A simple, direct synthesis of disodium tetracarbonylferrate. 503
**Dey, K.** Complexes of NS and NSO donor ligands. Nickel(II), copper(II) and cobalt(II) complexes of glyoxal bis(morpholine N-thiohydrazone) and diacetyl bis(morpholine N-thiohydrazone). 267
**Dilworth, J. R.** A convenient synthesis of 1,1'-dithiolatoferrocene and the preparation of $[ReO\{Fe(C_5H_4S)_2\}_2]^-$. 239
**Doadrio-Lopez, A.** μ-Oxo, μ-sulfido complexes of oxomolybdenum(V) with carboxylate ligands. 508
**Doadrio-Villarejo, A. L.** μ-Oxo, μ-sulfido complexes of oxomolybdenum(V) with carboxylate ligands. 508
**Donia, A. M.** Effect of axial anions on the thermal stability of square pyramidal manganese(III) complexes. 518
**Dudek, M.** 1:1 Molybdenum(VI) citric acid complexes. 495
**Dziegielewski, J. O.** Heterogeneous reactions of potassium chloromolybdates, $K_3[MoCl_6]$ and $K_4[Mo_2Cl_8]$, with nitrogen oxide. 427
**Egger, C.** Preparation and x-ray structure analysis of (μ-carbonyldichlorobis(μ-1,1-bis(diphenylphosphino)ethene)dirhodium). 185
**El-Bindary, A. A.** Dioxouranium(VI) complexes of aliphatic (mono- and di-) hydrazone-oximes. 23
**El-Dissouky, A.** Cobalt(II), nickel(II) and copper(II) complexes of syn-2-picolyl phenyl and syn-2-quinaldyl phenyl ketoximes. 181
**El-Haj, I. H.** Ternary complexes of palladium(II) and selected amines. 637
**El-Idris, I. F.** Electron transfer at tetrahedral cobalt(II). 1. Kinetics of bromate ion reduction. 145
**El-Reash, G. M. A.** Transition metal complexes derived from ethyl α-(N-phenylthiocarbamyl)cyanoacetate. 492
**El-Shazly, R. M.** Transition metal complexes derived from ethyl α-(N-phenylthiocarbamyl)cyanoacetate. 492
**El-Shazly, S. A.** Solvent effects on the aquation of chloropentamminecobalt(III) perchlorate in ethanol-water. 488
**El-Sheikh, M. Y.** Catalytic decomposition of hydrogen peroxide in the presence of N,N'-bis(salicylidene)-o-phenylenediamineiron(III) sorbed on to Dowex-50W resin. 319
**El-Sonbati, A. Z.** Polymer complexes. XVII. Thermal stability of poly(5-vinylsalicylidene)-2-aminophenol homopolymer and polymer complexes of 5-vinylsalicylidene-2-aminophenol with transition metal acetates. 45
**El-Sonbati, A. Z.** Fluorenone hydrazine-S-benzyldithiocarbazate transition metal complexes. 280
**Elvidge, D. L.** Isomeric forms of tris-Schiff base complexes of iron(II): structure of the complex derived from 2-acetylpyridine and methylamine 82
**Escriva, E.** Coordinating behavior of a new pyridylhydrazone; tris-complexes of manganese(II), cobalt(II), nickel(II), copper(II) and zinc(II) with 2-pyridylcarbaldehyde-N,N-dimethylhydrazone. 601
**Faus, J.** A solution study of complex formation between iron(III) and oxalate in dimethyl sulfoxide. 31
**Ferrer, E. G.** Two new ternary vanadyl(IV) complexes containing ATP. 599
**Filipek, K.** Heterogeneous reactions of potassium chloromolybdates, $K_3[MoCl_6]$ and $K_4[Mo_2Cl_8]$, with nitrogen oxide. 427
**Folgado, J. V.** Coordinating behavior of a new pyridylhydrazone; tris-complexes of manganese(II), cobalt(II), nickel(II), copper(II) and zinc(II) with 2-pyridylcarbaldehyde-N,N-dimethylhydrazone. 601
**Frank, S. A.** Cobalt(II) and copper(II) complexes of N,N',N'',N'''-tetra(2-cyanoethyl)-1,4,8,11-tetraazacyclotetradecane. 596
**Fraser, I.** Copper(II) and nickel(II) complexes of 10-methyl-10-nitro-1,4,8,12-tetra-azacyclopentadecane and kinetics of the acid catalyzed decomposition of the copper complex to give 15-nitro-2,6,9,13-tetra-azahexadecan-1-ol. 9
**Fraser, I.** Formation and isomerization of the O-sulfito complex of 1,4,7,10,13-pentaazacyclohexadecanecobalt(III). 122
**Fulop, V.** Synthesis and x-ray crystal structure of a dinuclear copper(I) thiobenzoate triphenylphosphine complex. 576
**Gangopadhyay, S.** Kinetics and mechanism of the reaction of [trans-cyclohexane-1,2-diamine-N,N,N',N'-tetraacetato]manganate(III) with substituted thioureas in aqueous medium. 355
**Garcia, G.** 4-Amino-2,6-dimethyl-5-oxo-3-thioxo-2,3,4,5-tetrahydro-1,2,4-triazine palladium(II) complexes. 469
**Garcia-Alejandre, J.** Polyfluorothiolate derivatives of rhodium(I). Crystal and molecular structure of $[Rh(\mu\text{-}SC_6HF_4)(C_8H_{12})]_2$. 130
**Garcia-Lozano, J.** Coordinating behavior of a new pyridylhydrazone; tris-complexes of manganese(II), cobalt(II), nickel(II), copper(II) and zinc(II) with 2-pyridylcarbaldehyde-N,N-dimethylhydrazone. 601
**Garg, B. S.** Characterization of nickel(II) complexes of a substituted 2-acetylpyridine thiosemicarbazone by electronic and NMR spectral studies. 111
**Ghosh, A.** Thermally induced isomeric transformations of bis(diamine) complexes of nickel(II) nitrate in the solid phase. 397
**Ghosh, A. K.** Kinetics of the interaction of aquo(ethylenediaminetetraacetato)ruthenate(III) with ferricyanide ion in water. 481
**Ghosh, A. K.** Kinetics and mechanism of ligand substitution of aquo(propylenediaminetetraacetato)ruthenate(III) in water. 484
**Ghosh, B.** Relative reactivities of glycerophosphates towards permanganate in perchloric acid medium. 500
**Girish, S. R.** Oxomolybdenum(VI) and oxomolybdenum(V) thiocarbohydrazone complexes. 435
**Glug, W.** Kinetic study of the reaction between protonated trans-dioxotetracyanomolybdate(IV) and 2,2'-bipyridyl. 614
**Gok, Y.** Synthesis and characterization of 2,3-bis(hydroxyimino)-1,2,3,4-tetrahydropyrido[2,3-b]pyrazine and its nickel(II), cobalt(II), copper(II), palladium(II), cadmium(II) and cobalt(III) complexes. 393
**Gomez, M.** Crystal structure of trans-ethyl(1,5,6-trimethylbenzimidazole)bis(dimethylglyoximato)cobalt(III). Relationships between structural and spectroscopic properties in compounds of the general formulas $[Co(dmgH)_2(R)(1,5,6\text{-}Me_3Bzm)]$. 176
**Gonzalez Garmendia, M. J.** Nitrates and bis(dithiooxalato)nickelates(II) of biacetyldihydrazone complexes. 363
**Goodgame, D. M. L.** Metal complexes of ligands containing intercalating units. Synthesis of nickel(II), copper(II), rhodium(II), and platinum(II) complexes with diamine-substituted acridines and quinolines, and with mitonafide [N-2,2'-dimethylaminoethyl)-3-nitro-1,8-naphthalimide] and related ligands. 223
**Graham, D. E.** Observed trans influence of donor atoms in monocharged bidentate ligands: crystal structure of the acetone solvate of (2-carboxyquinolinato)carbonyl(triphenylphosphine)rhodium(I). 193

Fax 071-522-9624

**Note to subscribers**

**Publication details:** One volume per year in six parts. Subscription period: calendar year only.

**Subscriptions**

The 1993 subscription rates for volume 18 are: EC £363; USA/Canada US $672; rest of the world £396.

Enquiries for subscription orders should be sent to the Subscription Department, Chapman & Hall, International Thomson Publishing Services Ltd, Cheriton House, North Way, Andover, Hampshire SP10 5BE, UK; Tel: (0264) 332424; Fax: (0264) 333471.

All subscription enquiries and prices for single issues for the UK and the rest of the world should be addressed to the Journals Promotion Department, Chapman & Hall, 2–6 Boundary Row, London SE1 8HN, UK; Tel: (071) 865 0066; Fax: (071) 522 9623.

All subscription enquiries and prices for single issues for the USA or Canada should be addressed to the Journals Promotion Department, Chapman & Hall, 29 West 35th Street, NY 10001-2291, USA; Tel: (212) 244 3336; Fax: (212) 563 2269.

All payments in US$ should be sent to Routledge, Chapman & Hall Dollar Account in New York: Account number 051-70700-4 at Barclays Bank New York Ltd, 300 Park Avenue, NY 10022, USA.

Journals are sent second-class in the UK and by air speeded post or air freight to most other countries. Journals can be sent by air mail letter rate at an additional cost, details of which are available on request.

Second-class postage paid at Rahway, NJ. Postmaster: send address corrections to Applied Economics, c/o Mercury Airfreight International Ltd Inc., 2323 Randolph Avenue, Avenel, NJ 07001, USA.

Editorial enquiries to: Publisher's Editor, Transition Metal Chemistry, Chapman & Hall, 2–6 Boundary Row, London SE1 8HN, UK.

The annual Author and Keyword indexes were prepared by the Chemical Abstracts Service. Accordingly, abbreviations and spellings occurring in the index entries are those regularly used in Chemical Abstracts.

# Author index

AUTHOR INDEX

**Abbas, N. M.** Chelate formation by hydrazones. 517
**Aboutabl, M. A.** Chelate formation by hydrazones 517
**Abu-Gharib, E. E. A.** Solvent effects on reactivity trends for base hydrolysis of iron(II) complexes of tridentate Schiff base imine ligands. 438
**Adinarayana, M.** Oxidation of nucleic acid bases by hexavalent manganese in aqueous alkaline medium: a kinetic study. 331
**Agrawal, A.** Hydrogen ion dependence in the oxidation of L-ascorbic acid by hexacyanoferrate(III) in water-alcohol mixture. 181
**Agrawal, A.** Kinetics and mechanism of electron transfer reactions. Reduction of mercury(II) chloride by L-ascorbic acid in acid perchlorate and chloride media. 343
**Agrawal, A.** Kinetics and mechanism of oxidation of uric acid by hexacyanoferrate(III) in acetate buffers. 547
**Al-Allaf, T.** Solvolysis of palladium(II) and platinum(II) complexes of asymmetric ligands: synthesis and structural characterization of [Pd(AMP)(dmso)Cl]$BF_4$ and [Pt(AMP)(dmso)Cl]$ClO_4$. 579
**Alarcon, E.** Oxyhalide molybdenum(V) diamine complexes. 497
**Al-Arfaj, A. R. A.** Synthesis of bis- and multinuclear gold(I) complexes of hexahydro-1,3-diazepine-2-thione. 557
**Ali, M. A.** Preparation, characterization and antifungal activities of nickel(II) and copper(II) complexes of ONS ligands formed from acetylacetone and S-alkyldithiocarbazates. 74
**Ali, M. A.** Synthesis, characterization and biological activities of some new nickel(II), copper(II), zinc(II), and cadmium(II) complexes of quadridentate SNNS ligands. 133
**Ali, M. A.** Rearrangement and complexation of 5-substituted-1,3,4-thiadiazolidine-2-thiones with divalent transition metals. 404
**Ali, S. I.** Photoexcitation of potassium octacyanotungstate(IV) and 2,2'-bipyridyl: kinetics and mechanism. 304
**Alshehri, S.** Salt effects on the kinetics of dissociation of the pentacyano-4-cyanopyridineferrate(II) anion. 231
**Alvarez de Cienfuegos, G.** Palladium(II) complexes of Schiff bases derived from 5-amino-2,4-(1H,3H)pyrimidinedione and its derivatives. 464
**Alyea, E. C.** A correlation of pyridine ligand cis- and trans-influences in [Pt($Pmes_2C_6H_2Me_2CH_2$)Cl($NC_5H_4X$)]. 481
**Anipindi, N. R.** Kinetics and mechanism of the oxidation of bis(2,4,6-tripyridyl-1,3,5-triazine)iron(II) by trans-1,2-diaminocyclohexanetetraacetatoetatomanganate(III) in acetate buffer. 325
**Anipindi, N. R.** Kinetics and mechanism of electron-transfer between bis(2,2',6',2''-terpyridine)iron(II) and manganese(III) in sulfuric acid medium. 533
**Araki, K.** Spectroelectrochemical and kinetic behavior of the (ethylenediaminetetraacetato)(diethyldithiocarbamato)ruthenate(2-) complex. 535
**Armstrong, J. M.** Facile synthesis of the nickel(II) complex of a new pendant arm macrocycle. 270
**Arquero, A.** Solvent and metal ion effects in condensation reactions between semicarbazides and pyridine derivatives and study of the complexes with metal chlorides. 338
**Athappan, P.** Synthesis and spectral studies of cobalt(II), nickel(II) and copper(II) complexes of 1-(2-hydroxy-1-naphthyl)-3-(4-X-phenyl)-2-propen-1-ones and their pyridine adducts. 39
**Ayoko, G. A.** Electron transfer at tetrahedral cobalt(II). Part II. Kinetics of silver(I) ion catalysed reduction of peroxodisulfate. 46
**Ayoko, G. A.** Kinetics and mechanism of the oxidation of iodide by diaquotetrakis(2,2'-bipyridine)-$\mu$-oxodiruthenium(III) ion in acid medium. 63
**Ayoko, G. A.** Electron transfer at tetrahedral cobalt(II). III. Kinetics of copper(II) ion catalyzed reduction of periodate. 423
**Babu, B. S.** Tris(bipyridine)ruthenium(2+)-sensitized photopolymerization of N,N'-methylenebisacrylamide. 495
**Bai, L.** Synthesis and magnetic properties of $\mu$-phenolatooxovanadium(IV), cobalt(II) and zinc(II) binuclear complexes. 560
**Baker, P. K.** Synthesis and reactions with donor ligands of the mixed halide seven-coordinate molybdenum(II) complex [MoClI(CO)$_3$(NCMe)$_2$]. 401
**Bala, B.** Reactions of pentakis(4-tert-butylphenoxo)tantalum(V) with $\alpha$-hydroxyaldehydes and ketones. 196
**Banerjea, D.** Kinetic studies on the complexation of uranium(VI) with chromotropic acid and chromotrope-2B. 426
**Banerjea, D.** Kinetic studies on the dissociation of triethylenetetramine complexes of nickel(II) and copper(II) in aqueous acid media. 430
**Banerjee, R.** Kinetics and mechanism of oxidation of hypophosphite ion by diaquobis(pentane-2,4-dionato)manganese(III) in aqueous perchlorate media. 277
**Baratova, Z. R.** Near neighbor ligand hyperfine splittings in the EPR spectra of copper(II) complexes. 552
**Bargon, J.** Role of resin-copper(II) complexes containing ethanolamines in hydrogen peroxide decomposition. 299
**Barrios, A.** Salt effects on the kinetics of dissociation of the pentacyano-4-cyanopyridineferrate(II) anion. 231
**Bartecki, A.** Spectrochemical properties of noncubic transition metal complexes in solution. Part III. Mixed tetragonal distorted nickel(II) pyridine complexes in dimethyl sulfoxide. 155
**Basak, S.** Kinetic studies on the complexation of uranium(VI) with chromotropic acid and chromotrope-2B. 426
**Basson, S. S.** Synthesis of cesium octacyanomolybdate(V)- and cesium octacyanotungstate(V) dihydrate: a more successful method. 471
**Bernardinelli, G.** Solvolysis of palladium(II) and platinum(II) complexes of asymmetric ligands: synthesis and structural characterization of [Pd(AMP)(dmso)Cl]$BF_4$ and [Pt(AMP)(dmso)Cl]$ClO_4$. 579
**Bhargava, P.** Kinetics of autoxidation of aqueous sulfur dioxide in suspensions of nickel(III) oxide 238
**Bhargava, R.** Kinetics of autoxidation of aqueous sulfur dioxide in suspensions of nickel(III) oxide 238
**Birkbeck, T.** Synthesis and reactions with donor ligands of the mixed halide seven-coordinate molybdenum(II) complex [MoClI(CO)$_3$(NCMe)$_2$]. 401
**Blaney, M. W.** Transition metal complexes of 3-acetylisoquinoline thiosemicarbazones as potential antifungal agents. 377
**Bohra, S.** Synthetic and structural aspects of dioxomolybdenum complexes of thiosemicarbazones and semicarbazones. 322
**Braganza, O. P.** Near neighbor ligand hyperfine splittings in the EPR spectra of copper(II) complexes. 552
**Brase, S.** Synthesis and reactions with donor ligands of the mixed halide seven-coordinate molybdenum(II) complex [MoClI(CO)$_3$(NCMe)$_2$]. 401

molybdenum oxo complex 322
Thiosemicarbazone
acetylisoquinoline complex transition metal 377
formylpyridine nickel complex 568
pyridine transition metal complex 338
Thiourea
deaquation rhodium aqua hydroxo kinetics 260
Thymine
oxidn manganate kinetics 331
Tin
cobalt enaminoketonato enaminoiminato complex 501
gold chloro phosphine cluster 334
nickel enaminoketonato enaminoiminato complex 501
propyleneglycolphosphonate complex 79
zincon electrosynthesis 1
Titanium
chloro complex stereochem thermal decompn 186
cobalt enaminoketonato enaminoiminato complex 501
nickel enaminoketonato enaminoiminato complex 501
Schiff base cyclopentadienyl complex 127
Toluenedithiocarboxylato
vanadium oxo nitrogen base complex 328
Tolylazopyridine
ruthenium aqua deaquation kinetics mechanism 23
Trans
cis influence pyridine ligand 481
Transition
metal benzylidenediketonato salicylidenediketonato complex 13
metal complex acetylisoquinoline thiosemicarbazone 377
metal complex hydronitroindolylborate nitroindolylborate 295
metal complex indolic acid 283
metal complexation isocitric acid kinetics 446
metal diamine hydroxyacetophenone salicylaldehyde Schiff 66
metal fluorenone thiosemicarbazonato complex 420
metal glyoxal dithiocarbazate Schiff 133
metal hydroxynaphthylphenylpropenonato deriv complex 39
metal methyldithiocarbazic acid Schiff complex 404
metal phenylmethylpentendionato complex 458
metal propanedithiolato bridged anion 509
metal propyleneglycolphosphonate complex 79
metal pyridine semicarbazone thiosemicarbazone complex 338
metal Schiff base phenolato complex 560
metal zincon electrosynthesis 1
metalatotungstoantimonate ammonium salt 314
state cobalt cyano chloro solvolysis 369
Triazacyclononane
copper chloro acid dissocn kinetics 81
Trithiacyclotriveratrylene
copper complex 525
Tungstate
cobalt redn periodate copper catalyst 423
cyano complex cesium salt 471
Tungsten
cobalt heteropoly redn peroxodisulfate kinetics 46
Tungstoantimonate
rare earth metallo 311
transition metalato ammonium salt 314
Tungstocobaltate
redn peroxodisulfate silver catalyzed kinetics 46
Uracil
oxidn manganate kinetics 331
Uracilato
carboxyphenylazo copper imidazolato bridged 397
Uranium
6 complexation chromotropic acid kinetics 426
Uranyl
stearic acid hydrazone complex 539
Uric
acid oxidn hexacyanoferrate kinetics 547
acid oxidn thallium kinetics mechanism 224
UV
spectra chromium hexathiocyano preferential solvation 5
Valence
mixed ruthenium polyaminopolycarboxylato dinuclear stability 97
Vanadium
hypoxanthine xanthine complex 159
toluenedithiocarboxylato oxo nitrogen base complex 328
Vanadyl
formylphenolato benzoylhydrazone complex 560
stearic acid hydrazone complex 539
toluenedithiocarboxylato nitrogen base complex 328
Visible
spectrum solvent effect ruthenium complex 535
Xanthate
heterobimetallic complex prepn thermal decompn 130
Xanthene
dye ruthenium bipyridine photoredn micelle 506
Xanthine
vanadium complex 159
Zinc
formylphenolato benzoylhydrazone complex 560
pyranone complex 242
Zincon
transition metal tin lead electrosynthesis 1
Zirconium
Schiff base cyclopentadienyl complex 127
Zirconocene
phthaloyl amino acid complex 9
